

Workshop 3
LAC Regional Climate Change
Consortium Activities

Bob Oglesby and Clint Rowe
University of Nebraska-Lincoln

27-30 MARCH 2017, CATAHLAC, CUIDAD DEL SABER, PANAMA

Workshop Objectives

- Meetings of each Working Group to discuss progress and update regional needs
- Individual Participant discussion of specific country progress and continued needs.
- Regular Reports of each Working Group to all participants
- Update on and discussion of new MapMaker improvements and enhancements
- Group assessment of progress and the next steps to take.
- Scheduling the next Workshop!

Overall Consortium Goals and Products

- 1) A Report describing the events and accomplishments of each Workshop.
- 2) A Final Report summarizing all of the Workshops, as well as activities between Workshops.
- 3) *Each Working Group will produce interim reports after each Workshop, as well as a final report at the end of the project.
- 4) Each Working Group will develop one or more publications in reputable scientific journals.

Outcomes from Workshop 1

- Participants were introduced to each other and established good relationships. (Many but not all of the Participants had been involved in our prior activities.)
- Background lectures were presented by UNL staff on regional climate modeling basics, and the WRF simulations that are available to the Consortium.
- Much material was familiar to some participants, but was new to other participants. These lectures ensured that all participants had the same information and knowledge.
- Three key Working Group topics were identified, and the participants for each identified.
- Much of the Workshop involved these Working Groups meeting, identifying key issues, and the means by which these issues will be addressed.

Outcomes from Workshop 2

- Working groups, working groups, working groups!
- NCAR MATERIALS
- MAPMAKER

Synopsis of Agenda

Day 1: Morning – Introduction, WG reports, Mapmaker Update. Afternoon – WG meetings; group discussion

Day 2: WG meetings, group discussion

Day 3: WG meetings and group discussion

Day 4: Morning – WG finalize plans and report. Afternoon – Accomplishments and key needs, future objectives, goals, and tasks

We Aim to Put the WORK into
'Workshop'!

This is **YOUR** Workshop!
